Scheduled Maintenance and Inspection Program

Aerial Equipment Inspection

ANSI / OSHA / CSA require Boom Lift and Scissor Lift Inspections to be completed Frequently (every 3 Months or 150 Hours) and Annually (every 13 Months)

Scheduled Preventative Maintenance

Our proactive PM Services assist in keeping your equipment properly serviced at manufacturers recommended intervals. Services can be fully customized to suit your specific site needs.

Proactive Automated Scheduling

Inspections and PM Services are proactively scheduled, performed, and tracked at the required predetermined intervals utilizing the same proprietary operating systems we utilize to maintain our rental fleet.

Fixed Pricing

Our fixed priced program allows you to balance, allocate, and budget costs for routine Scheduled Maintenance and Inspections.

Scheduled Preventative Maintenance

Our proactive PM Services assist in keeping your equipment properly serviced at manufacturers recommended intervals. Services can be fully customized to suit your specific site needs.

Record Retention and Documentation

A detailed history of all Inspections and Services are recorded and stored in our system for 3 years to keep you in compliance with ANSI / OSHA regulations.

Total Control®

View and manage your owned and rented equipment in one customizable portal. View Service and Inspection data, assign assets to worksites, set alerts, review invoices, customize reports, and benefit from many other features that help you efficiently manage your equipment.

Remotely Monitor Your Own Equipment

With Telematics (GPS) installed your equipment can be remotely monitored in Total Control in real time. View service intervals and alerts, location, utilization, usage, machine hours, geo-fences, battery voltage, etc. Customizable reporting and other valuable features will assist you in effectively managing your equipment. See your sales rep for additional details or a live demo.

Basic Preventative Maintenance Program:

Services performed on customizable schedule per customer request PM Service includes Basic Engine Service*, Machine Function Test, Multi-Point Checkup & Lube, 1 Hour of Total Travel Time *Basic Engine Service consists of Engine Oil/Filter, Fuel Filter, Used Oil Disposal/Cleanup, Multipoint Checkup. Additional work or travel required/recommended will be submitted for customer approval. Service billed at time of service.

2019 JOHN DEERE 317G
Serial# 1T0317GJJKJ353675 Equip# 240601AH

\$890. Per Inspection

For complete details contact your local Branch or our Customer Equipment Solutions Team (CESsupport@ur.com) and allow us to design a service program that fits your needs.

Fleet Management Solutions

Total Control®

Total Control® is a cloud-based worksite management solution that helps you make the most of your equipment fleet—rented and owned. View and manage your rented and owned equipment in one customizable portal. Assign assets to worksites, set alerts, review invoices, customize reports, and benefit from many other features that help you efficiently manage your equipment.

Telematics

With telematics functionality, you can monitor your equipment across multiple worksites, have preventive maintenance and inspections automatically scheduled, view equipment utilization, set geofence alerts, and get field service technicians dispatched when you need them. Telematics services are conveniently viewed and managed in Total Control.®

Maintenance & Inspection

Our Customer Equipment Solutions team specializes in equipment repair and service in the field, so you can protect your investment. Our proprietary software allows us to proactively schedule required inspections and preventive maintenance services at predetermined intervals. Your records are retained for a minimum of three years, and duplicates are available whenever you need them.
